

HYPERSTEEL™ COLD-FORMED BUILDINGS: THE FASTEST WAY FORWARD.

Hypersteel™ cold-formed buildings offer the fastest design and production within our building solutions portfolio. Whether you're a building enthusiast or building expert, you don't have to decide between high-quality trusted materials and speed and efficiency anymore.

HYPERSTEEL BUILDINGS GIVE YOU BOTH.

Specially designed and engineered Hypersteel buildings are made by shaping and bending steel strips without heat treatment during the production process. This results in a simple, sturdy, lightweight structure with long-term value.

BUILD FAST. REALLY FAST.

- ▶ The Hypersteel cold-formed manufacturing process is our fastest option to take your building from design to delivery.

- ▶ Faster lead times result in shorter construction cycles, which means you can potentially take on more jobs!

SAVE ON TIME. SAVE ON COSTS.

- ▶ Hypersteel buildings' faster production lead times, paired with its lightweight design, result in overall project savings compared to other construction methods.
- ▶ When using cold-formed steel buildings, the foundation typically requires less concrete, which reduces total project costs.

- ▶ Hypersteel design software provides clear installation details.
- ▶ Hypersteel building frames are lightweight and allow for lighter truckloads and easier maneuverability on the job site.

DURABILITY & LONGEVITY TO PROTECT WHAT MATTERS.

Hypersteel™ buildings protect against:

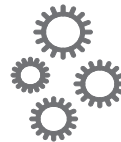

Pests

Termites

Fire

Mold

Hypersteel buildings are resistant to:

Corrosion

DELIVERING VALUE FOR YEARS TO COME.

- ▶ Compared to conventional building materials, Hypersteel cold-formed buildings will stand the test of time, offering exceptional long-term value.
- ▶ Hypersteel buildings last longer than buildings with organic components, such as traditional post-frame buildings or wooden barns.

Hypersteel buildings qualify for our existing warranties: Finish, Substrate, Watertightness, and Product

ORDER EASILY WITH NO GUESSWORK.

- ▶ Design, quote, and order Hypersteel buildings directly in our specialized software. This user-friendly system gives you a clear line of sight into your projects—so you can manage them with full transparency—and also provides support when you need it.

ACCELERATE YOUR PROJECTS FORWARD WITH HYPERSTEEL BUILDINGS.

- ▶ Hypersteel buildings put your inspiration, your projects and your growing business into hyper mode. It's backed by the largest manufacturing network in North America, so you can access Hypersteel cold-formed buildings where and when you need them.
